

**Nursing Care Plan Grading Rubric  
(20 Points)**

Criteria	2 – All criteria met	1 – Criteria inadequately met	0 – Criteria not met
<b>Three Part Nursing Diagnoses</b>	All three diagnoses written in NANDA format, including R/T and AEB statements. Psych/social diagnosis included.	Only two nursing diagnoses written in NANDA format and/or did not appropriately include R/T and AEB statements. No psych/social diagnosis included.	Less than two diagnoses written in NANDA format and/or did not appropriately include R/T and AEB statements. No psych/social diagnosis included.
<b>At Risk For Nursing Diagnoses</b>	No more than one “at risk for” used.	More than one “at risk for” used.	More than two “at risk for” used.
<b>Prioritization of Diagnoses</b>	Correct prioritization of nursing diagnoses.	One nursing diagnoses not properly prioritized.	Nursing diagnoses incorrectly prioritized.
<b>Nursing Outcomes (NOC) or Nursing Goals</b>	All goals listed are specific, measurable, attainable, realistic, and timed.	One to two goals are missing components of being a SMART goal.	All three goals are not SMART goals or goal(s) are not identified/missing.
<b>Nursing Interventions (NIC) Identified</b>	Three interventions for each goal are identified.	Interventions are listed for each goal but did not list three for each.	Less than three interventions are listed for each goal.
<b>Nursing Interventions (NIC) Specific to Patient</b>	Interventions are specific to the patient.	Most interventions are specific to the patient.	Interventions are not specific to the patient.
<b>Frequency of Nursing Interventions (NIC)</b>	All interventions include the frequency of when they should occur.	Most interventions include the frequency of when they should occur.	Frequency of interventions are not identified.
<b>Delegation of Nursing Interventions (NIC)</b>	At least one intervention for each NOC or goal may be delegated to an LPN or NA.	At least one intervention for each goal or NOC that may be delegated to a LPN or NA is not included.	No interventions listed may be delegated to a LPN or NA.
<b>Evaluation</b>	Each NOC or goal is evaluated and patient specific data of that measurement is included.	One or more NOCs or goals are not evaluated and/or patient specific data is not included.	The NOCs or goals are not evaluated using patient specific data.
<b>References, spelling, and grammar</b>	Reference(s) included, care plan free of spelling and grammar errors.	Missing reference(s) and/or some grammar/spelling errors.	No references listed and multiple spelling and grammar errors.

SCORE: \_\_\_\_\_ / 20
